

HOW TO ACCESS CLASSDOJO

We are now using a service called ClassDojo to allow better communication between parents, teachers and children.

ClassDojo can be accessed on a phone, a tablet, or a laptop/computer, and it's really easy to set up.

SETTING UP YOUR ACCOUNT

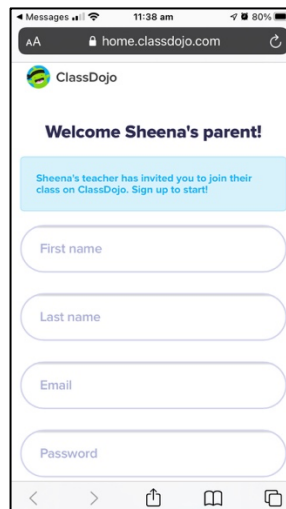

1. You will receive a text message, or an email, with a link to set up your ClassDojo account. It will look something like this;

Mr. Green has invited you to join Sheena's ClassDojo class. To accept, visit <https://classdojo.com/PNHUSXQ3S> or sign up with the code PNHUSXQ3S

Click on the link in blue.

2. The link will take you to the ClassDojo, where you'll be asked to enter your details.

The screenshot shows a mobile browser interface with the address bar displaying 'home.classdojo.com'. The page has the ClassDojo logo and a 'Welcome Sheena's parent!' message. Below this is a light blue box stating 'Sheena's teacher has invited you to join their class on ClassDojo. Sign up to start!'. There are four input fields: 'First name', 'Last name', 'Email', and 'Password'. At the bottom of the page, there are navigation icons for back, forward, home, and search.

Agree to the Terms of Service and Privacy Policy, and then click 'Sign up'.

Sign up

And that's it! Your account has been created, and will automatically link to your child's account and their class' page.

Follow the steps below to download the ClassDojo app...

Please turn over...

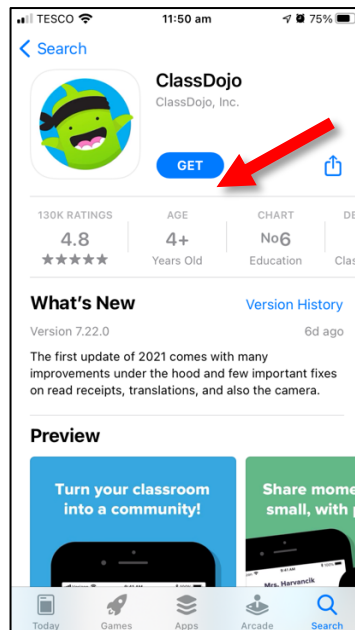

DOWNLOADING THE CLASSDOJO APP

3. The best way to access ClassDojo is by downloading the app. After you've signed up, you should be prompted to download the app. But if not, go to your App Store and search for 'class dojo'.

Cancel

4. Once you've downloaded the app, open it up. Tap 'I'm a parent'.

Then tap 'I have an account'.

I have an account

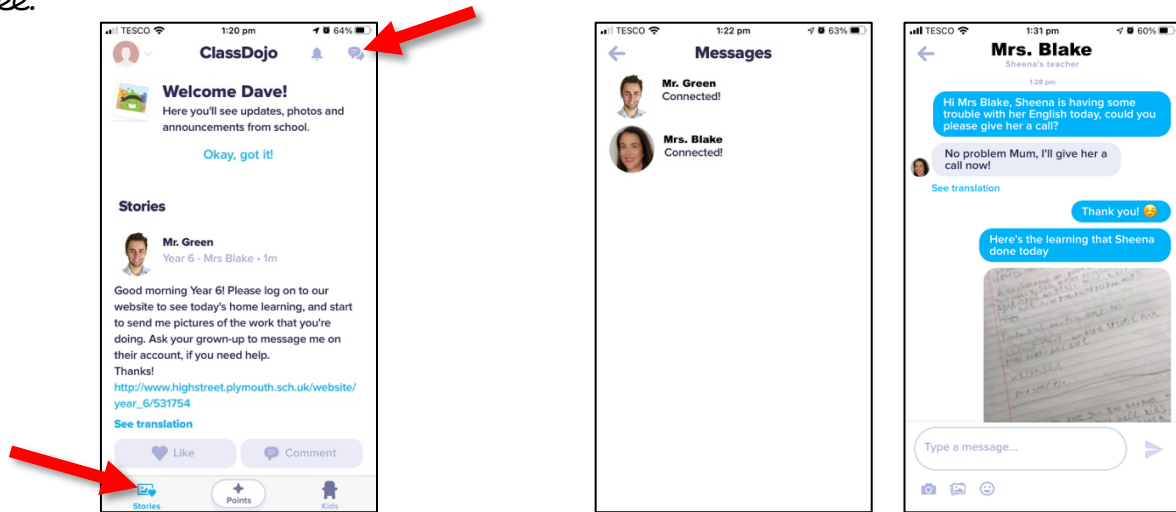

You'll be asked to log in with the details you've just set up.

Log in

USING CLASSDOJO

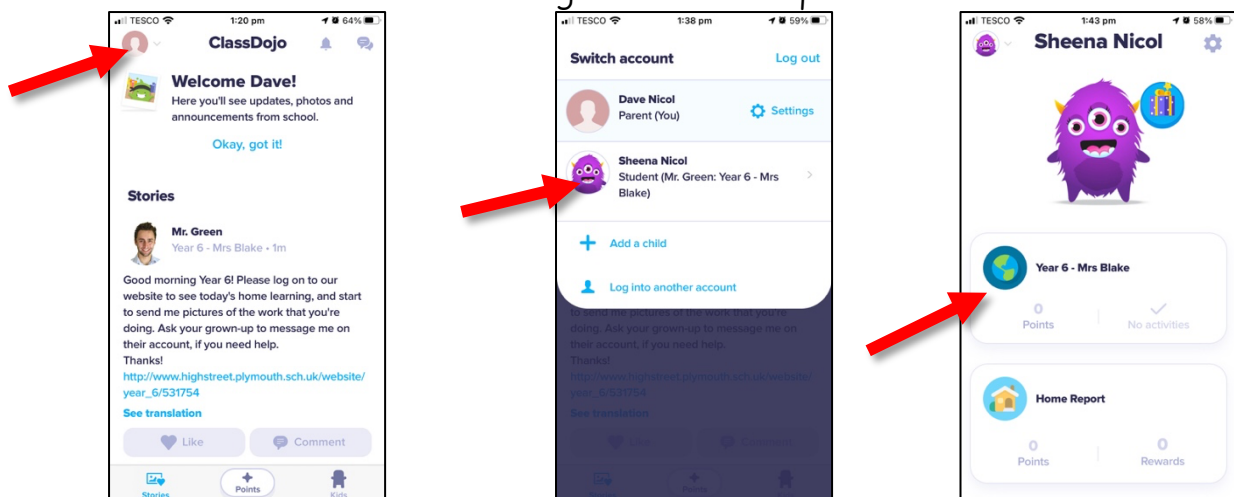

5. When you open the app, you will see your child's 'class story'. This is where your teacher will post updates (like on Facebook), for everyone to see.

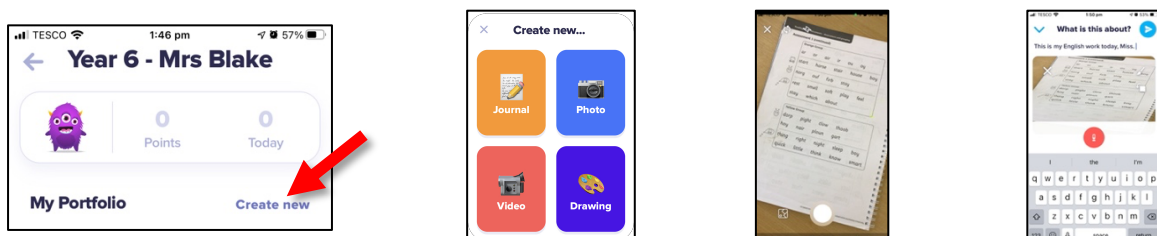

On the top right of your screen, you will also see a messages button. This will allow you to send a text message directly to your child's teacher, and send them photos of your child's learning.

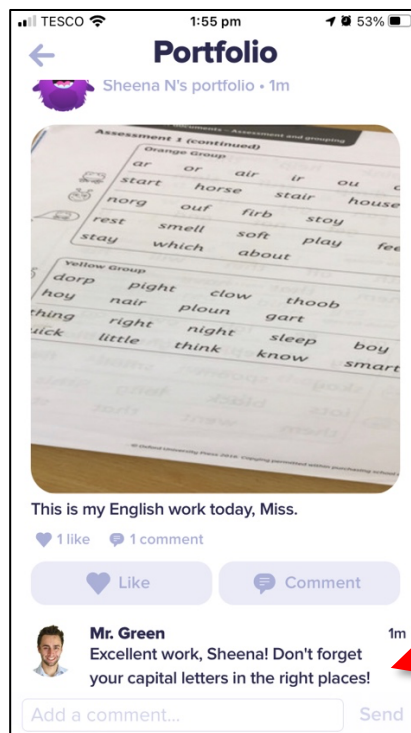

6. Your child can also log on to their own ClassDojo account, through your device. They just need to click on the profile button on the top left, and then select their name. They can then tap on their class.

7. If your child needs to send their learning to their teacher, they can do so by click on the 'Create New Portfolio' button. They can upload their learning, write a message to their teacher, or record a voice note, and send it!

8. Your teacher can then respond with comments to give feedback. Parents will also be sent their child's learning, and will be able to see the feedback and conversation that their child is having with their teacher.

We think that this will be an excellent way for us to support you and your child with your child's home learning. The ability for you to message your teachers directly, and for your children to send work and have it responded to, will ensure that your child continues to progress, even during lockdown.

If you have any questions regarding ClassDojo, or need any help or assistance in setting it up, please get in touch with us, and we'll be very happy to help!

Warmest regards,

Mr A Green
