Dear Parents/Carers,

We have booked a Science, Technology, Engineering and Maths (STEM) workshop for Years 4 and 5 to take part in on the morning of Tuesday 26th February.

The workshop will take place at UTC and will include a variety of activities including 3D printing, robotics and thermal imaging. The classes will walk to UTC for the start of the workshop at 10am and will return to school at approximately 12.45pm.

All children will need to wear a warm, waterproof coat on this day in case of poor weather. They will also need to ensure they bring a packed lunch which they can eat when they return to school in the early afternoon. If your child is entitled to free school meals, a packed lunch will be provided for them by the school kitchen.

It promises to be an engaging and interesting morning which may inspire the scientists and engineers of the future!

If you have any further questions about this trip please feel free to come and speak to one of us.

Mr Chadwick, Mr Towers & Mr Simpson
