

PLYMOUTH LABOUR COMMUNITY ACTION PPE VOLUNTEER TEAM

We are making and distributing PPE for those who are vulnerable and most in need. Many people feel anxious and are not sure how to protect themselves and their families. We are providing practical help in the form of home-made, non-surgical PPE, to help prevent the spread of the Corona Virus.

We are not producing PPE items to stop people catching the Corona Virus.

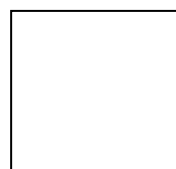

You can request:

1. General-use basic face coverings.

2. Face coverings with filter pouches and a pipe cleaner in the top seam to ensure that it fits tightly around the nose.

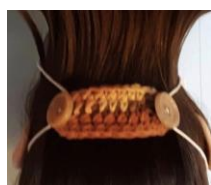

3. Elasticated head bands with buttons to which the face coverings are attached for comfort.

4. Drawstring laundry bags that can be used to put work clothes in and be put straight into the washing machine.

5. Mask Mates to attach the face covering to stop the elastic rubbing around the ears.

All items have been made at home by volunteers. Please request only what you need. Return this form with the number of each item you would need.
